

Production Autotest Winter Mini-Series for 14 –17 year olds.

North East of Scotland Motorsport Club is promoting a 3-event winter series for 14 – 17 year-old drivers. The series is run over the first three months of 2019 and can be used as a warm-up for existing competitors in the J1000 Championship, or for newcomers looking to get a start in low-cost motorsport. It will also be useful for new entrants in the J1000 Championship who need to do three autotests to qualify for a competition licence.

The series is open to any driver under 18 years old on the day (10/3/19) of the final event in the series, and any car that complied with Production Car Auto test Regulations may be used. [Motorsport UK Regulations](#)
