Driving Standards:

We hope that you enjoy driving our planned route, however we ask that you are **courteous** and **patient** with other road users you may encounter along the route. Also beware of animals on the road, especially sheep, cattle, pheasants and deer.

The route has been planned in such a way that even though you may have to slow down for narrow single track roads, there are other sections where you can drive a little more enthusiastically

You are reminded that crews may wish to cover the route at differing speeds. Please do not hold up others who may wish to travel slightly faster than you.

The organisers wish all a safe and pleasant tour
